

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS AIR MOBILITY COMMAND (AMC)

MEMORANDUM FOR 868 CS/DO
HQ AMC/A44M
IN TURN

OCT 15 2004

FROM: 805 CSPTS/SCCN

SUBJECT: AMC Certificate to Operate (CTO) Determination for Automated Technical Order Management System (ATOMS) Version 2.0

1. We have determined that an AMC CTO is not required for ATOMS Version 2.0. This determination has been made after reviewing the requirements provided by the Program Management Office.
2. ATOMS Version 2.0 is a web-based application residing on an accredited server belonging to the 88th Communications Group at Wright-Patterson AFB. The application is accessed through ATOMS desktop software.
3. AMC Network Control Centers may use this memo as authority to upgrade ATOMS Version 2.0 as required. An Internet Security Systems Scan must be run immediately after upgrading to ensure the configuration is accurate and leaves no unacceptable risk to the Enterprise.
4. Recommend widest dissemination of this memo to appropriate offices. POC for this system is Gregory McGowan, DSN 576-1617.

BRADLEY N. BOUDREAUX, 1st Lt, USAF
Chief, AMC Information Assurance Element

Applies to v. 2.2.1 and 2.3
